

I am writing to inform you of the many benefits of K-LOVE. K-LOVE has been a wonderful station to have on the radio. It provides hope in a world filled with dispair. It serves my local community by providing a positive station to turn to. It is the only station with contemporary christian music locally for me. If it were displaced by an LPFM broadcaster providing other programming, the message of GOD's word would not get spread over the radio as it does now. I believe that K-LOVE is a great radio station and I know that it is changing the lives of listeners. It may be the only way some people get to hear GOD's word. It allows christians to praise GOD and I feel that that is the most important act that we can do. Thank you.
